

GUIDE TO THE SCELl DATA

The SCELl data is based on three surveys; Work attitudes/Histories survey, Household and Community Survey and Employers Surveys, carried out in six urban areas; Aberdeen, Coventry, Kirkcaldy, Northampton, Rochdale and Swindon.

Work Attitudes/Histories Survey

The fieldwork for the Work Attitudes/Histories Survey was carried out between June 1986 and November 1986, with approximately 1000 respondents in each area, (making 6111 cases in all). Each area questionnaire included Life and Work Histories plus core questions (551 variables) which were common across all areas. In addition a number of questions were asked that were specific to respondents in particular areas.

The sampling areas were defined in terms of the Department of Employment's 1984 Travel to Work areas. A random sample was drawn of the non-institutionalised population aged 20-60. The response rate in each area was 75% or over. An initial selection of addresses was drawn from the electoral register and then the Kish grid was used to identify individual respondents. An additional booster sample of the unemployed was drawn to ensure a minimum of 150 unemployed respondents. This was carried out in all locations other than Kirkcaldy where the sample numbers of unemployed generated by the initial sample were sufficient. The structure of the achieved sample was as follows:-

	Aberdeen	Coventry	Kirkcaldy	N'pton	Rochdale	Swindon	Total
Initial sample	997	990	1011	957	987	955	5897
Booster sample	48	23	-	65	18	60	214
TOTAL	1045	1013	1011	1022	1005	1015	6111*

* Now 6110

Respondents from the Booster sample are identified by the variable, addtype, and weights for integrating the main and the booster sample are available in the variable Weight. This weight also carries out an adjustment to the ratio between sexes.

Household and Community Survey

In 1987 (fieldwork, March - July) a follow-up survey was carried out on approximately one third of the respondents to the 1986 Work Attitudes/Histories Survey, in each of the six areas. This survey consisted of 1816 respondents, 1218 of whom were living in partnerships and 598 of whom were single. Where applicable, partners were interviewed as well as the original respondent.

The questionnaire for this survey consisted of three sections; an interview schedule including questions to both respondents and partners, a respondent's self-completion and partner's self-completion. Partners' data is coded under the respondents' identification number. For single people the interview schedule is shorter and there is no partners' self-completion. These questionnaires include Life-history and work history updates for the original respondents, Work history schedules for partners, core questions (1372 variables) and area-specific questions.

Employers Surveys

Between October 1986 and February 1987 a survey was carried out on employers (n = 1308) of the respondents in the Work Attitudes/Histories survey. Different questionnaires (designed to provide functionally equivalent questions for different types of organisation) were used for large and small employers, for public and private enterprises, and for different industries. These questionnaires are in three parts. Part A varies by whether the enterprise is public or corporate. Part B varies by the size and public or private status of employers. Part C varies according to the industry of the employer: 1. manufacturing/wholesale/haulage/extractive/agriculture and fisheries; 2. Retail/Hotel and Catering/Personal and other consumer services; 3. Banks/financial and business services. 4. Construction.

Organisation of Data

Data Sets and Codebooks

The data for the Work Attitudes/Histories survey and the Household and Community Survey is contained in two ASCII data sets; SCELMAIN.DAT and SCELHCS.DAT. This data is described in three separate codebooks;

1. Main survey codebook which includes annotated questionnaires for area-specific questions
2. HCS survey codebook which also includes annotated

questionnaires for area specific questions

3. Life and work histories codebooks which include the main life and work histories plus the HCS updates.

SPSSX Set-up files have also been submitted for this data. The set-up files are as follows:-

	Main Survey	HCS Survey
Core data and Life & Work Histories	SCELIMAIN.SPS	SCELIHCS.SPS
Area-Specific variables	Abermain.SPS Covmain.SPS Kirkmain.SPS Northmain.SPS Rochmain.SPS Swinmain.SPS	Aberhcs.SPS Covhcs.SPS Kirkhcs.SPS Northhcs.SPS Rochhcs.SPS Swinhsc.SPS

The data for the Employers' survey have been submitted as SPSSX export files as a considerable amount of programming is needed to make the raw data convenient to use. The file COMBINT.EXP contains data from both large and small employers, plus a few additional questions which were asked of small employers. The file LONGINT.EXP contains data from large employers only, who received a longer questionnaire.

A file EMPIND.EXP which can be used to combine data from the Work Attitudes/Histories survey with data from the employers' survey has also been submitted. A further codebook describes the variables and derived variables contained in COMBINT.EXP and LONGINT.EXP.

Ideas Statistical Packages

A further statistical package plus data set and manual, IDEAS, designed to make the work histories and life-histories easier to use has been submitted by the Warwick University Institute of Employment Research.

Data Error Checks

Wild code checks, filtering checks and consistency checks were carried out. Identified errors were in general very low. However, a higher error rate was found in two variables. Q194 on the main survey asked respondents to estimate their household incomes. Consistency checks suggest that approximately 9% of respondents underestimated their household income. In two thirds of these cases there was insufficient information to make a more accurate estimate. Implausible values, of which there were few, were set to missing. However, this variable should be treated with caution. Other income data appears to be reliable.

Some inconsistencies were found on the work histories between respondents' self-categorization of part or full-time working and the codes given for hours actually worked. Again, given the fact that these were histories, there was insufficient extra information to determine the correct value. Some of these cases may reflect genuine variations in what is considered to be part-time work. But even on the assumption that all cases are errors, such errors occur in less than 1% of the work histories. One case, 20052, was removed from the data set as it was considered that the data recorded on the questionnaire was not reliable.

PUNCH CARD 014

AQ12 SHOW CARD A3 Which one of the statements on this card most closely corresponds to how you see your current job ?

(48)

MY JOB CONSISTS OF A FIXED RANGE OF TASKS
AND I ONLY DO THOSE TASKS

1

MY JOB CONSISTS OF A FIXED RANGE OF TASKS BUT I
AM EXPECTED TO HELP OUT ELSEWHERE WHEN NECESSARY

2

IN MY JOB YOU HAVE TO BE PREPARED TO DO
WHATEVER TASKS ARE ASKED OF YOU

3

IN MY JOB THE RESPONSIBILITIES ARE LAID
DOWN BUT IT'S THE PERSON IN THE
JOB WHO DETERMINES PRECISELY WHAT GETS DONE

4

(DK)

7

AQ12

AQ13 SHOW CARD A4 The relationship between managers and workers often differs. Thinking of your own work and the manager or supervisor you most directly work under, which of these situations best describes their approach.

(49)

THE MANAGER MAKES DECISIONS AND EXPECTS THEM
TO BE CARRIED OUT WITHOUT QUESTION BY YOU

1

THE MANAGER MAKES DECISIONS, EXPLAINS THE REASON FOR THEM,
AND THEN EXPECTS YOU TO CARRY THEM OUT WITHOUT QUESTION

2

THE MANAGER CONSULTS WITH YOU BEFORE MAKING A DECISION
BUT ONCE HAVING MADE THE DECISION EXPECTS YOU TO CARRY IT OUT

3

THE MANAGER CONSULTS WITH YOU AND OTHERS INVOLVED IN THE
PROBLEM AND ACCEPTS AS THE DECISION THE MAJORITY VIEW OF
THOSE INVOLVED

4

NOT RELEVANT BECAUSE I DON'T WORK UNDER
THE SUPERVISION OF A MANAGER OR SUPERVISOR

5

INTERVIEWER INDUSTRY CODING CATEGORIES

(FOR USE IN SECTION Y OF WORK HISTORY)

ABERDEEN

INDUSTRY CODES ARE TWO-DIGIT -

FIRST DIGIT: ALWAYS 0-9 AS IN SECTION ONE BELOW (MAIN INDUSTRY CATEGORIES)

SECOND DIGIT: 1-3 AS IN SECTION TWO OVERLEAF (DEGREE OF INVOLVEMENT WITH OIL/GAS INDUSTRIES)

(N.B. THERE ARE TWO MAIN CATEGORIES IN SECTION ONE NUMBERED 7. THE SECOND DIGIT (SECTION TWO) FOR ONE OF THESE, NAMELY CATEGORY *7, MUST THEREFORE BE 4, 5 OR 6 (INSTEAD OF 1, 2 OR 3) IN ORDER TO DISTINGUISH BETWEEN THEM)

SECTION ONE - MAIN CATEGORIES (FIRST DIGIT)

FIRST DIGIT OF CODE	CATEGORY DEFINITION
0	Agriculture, forestry and fishing
1	Energy and water supply industries - gas, coal, oil, electricity and water (inc. oil, coal and gas exploration, extraction and refining, gas and electricity boards, water authority)
2	Extraction of minerals and ores other than fuels, manufacture of metals (e.g. iron and steel), manufacture of mineral products (e.g. cement and glass); manufacture of chemicals (inc. drugs, pesticides, toiletries, explosives, paint)
3	Manufacture of metal goods (such as bolts, hand-tools, oil tools and inc. ship building and motor vehicles/motor parts), mechanical, electrical, electronic and instrument engineering (inc. making machinery, equipment for industry, scientific instruments, electrical appliances)
4	Other manufacturing (inc. food, drink, tobacco, clothing, textiles, footwear, furniture, paper, timber, printing, jewellery, toys, rubber and plastics)
5	Construction (inc. builders, painting and decorating, plumbers, building repair, civil engineering, road building)
6	Distribution (inc. shops, retail, wholesale, hotels, pubs, catering, repair of consumer goods and vehicles, petrol stations, dealing in waste materials)
7	Transport (inc. buses, railways, airplanes and airports)
*7	Communication (inc. telephones, broadcasting, newspapers)

INTERVIEWER INDUSTRY CODING CATEGORIES (CONT.)

ABERDEEN

CODE	CATEGORY DEFINITION
8	Banking, finance, insurance, business services (inc. estate agents, lawyers, accountants, banks, market research, advertising, car hire firms, computer software)
9	Other services - local and national Government; public administration; DHSS; social work, police; fire, defence; education (e.g. schools, colleges); medical and other health services (e.g. doctors, dentists, vets), personal services (e.g. laundries, hairdressers); domestic servants, cleaning, sanitary services; recreational services, sport, charities, trade unions; religious organisations, libraries; tourist services,

SECTION TWO - INVOLVEMENT WITH OIL / GAS INDUSTRIES (SECOND DIGIT)

SECOND DIGIT OF CODE	INVOLVEMENT WITH OIL / GAS INDUSTRIES
1 (or 4, for any organisation coded *7 as first digit)	Is/was involved directly in oil or gas exploration, development or extraction
2 (or 5, for any organisation coded *7 as first digit)	Is/was provider of goods or services for oil or gas exploration, development or extraction
3 (or 6, for any organisation coded *7 as first digit)	Involved with neither
